

[Cadillacs For Sale by owner ::](#)

1969 Cadilliac Deville

Here we have my 69 caddy with 73,000 original miles on the strong 472 V8. The fuel is sucked by the factory equipped Rochester Quadra Jet carburetor. The paint is original Shalimar Gold, with a black vinyl top. It does need a new top and paint. There is Rust behind the tires in the front wheel wells on both sides. I just installed a new battery, and the white wall tires are also fairly new. The registration is current through March of 2012, and since it is pre 1976 there is no smog needed. All of the trim and logos are accounted for. The Engine compartment is complete and not missing any components. All of the interior dash and courtesy lights work. All exterior lights work.
