## 2011 Cadillac STS 1SC Perf Lux

With sharp lines and a commanding profile, the 2011 STS is a driver's luxury sedan with ample room for five, along with generous trunk space. Engineered to accelerate, corner, brake and respond without compromise, this luxury touring sedan offers a spirited driving experience. At the heart of STS performance lies a 302 HP direct injection V6 engine and Hydra-Matic 6-speed automatic transmission with Driver Shift Control that allows manual shifting without the use of a clutch pedal. Taking performance a step further is the available Performance Handling Package that includes summer-only performance tires<sup>23</sup> and Brembo® race-inspired brakes. If you prefer more luxury versus performance, STS is available with the Premium Package or Platinum—the ultimate in luxury, this one is the Premium Package. STS may also be equipped with technologically advanced features like the Driver Awareness Package that offers Side Blind Zone Alert<sup>15</sup>—it's like having an extra set of eyes to the side of your vehicle. Has a Custom Wing, Sun Roof, 18" Custom Cadillac Wheels and Navagation. A touch-screen navigation system\* with voice recognition and heated and cooled front seats are also available. The 2011 Cadillac STS Touring Sedan. Sophistication with attitude. Call Mike Martin 480-206-3753
