

[Cadillacs For Sale by owner](#) ::

1977 coupe deville

Black coupe deville with brown leather interior with no tears. Has 40k original miles and has been owned by 2 people, in the same family. The windshield and drivers side window were shattered in a hailstorm a few years ago and need replaced. There is some hail damage to the hood and top but only minimal, I would say about 15 spots in all. It runs good and has a new starter, battery and just had a tune up. It's missing a couple pieces of chrome trim but really is a great looking car.
