1948 Cadillac 62 Convertible - 39TPA

<http://gatewayclassiccars.com/displaycar.php?stock=39&location=TPA>

One of a kind 1948 Cadillac 62 Series convertible for sale in our Tampa Showroom. This one-off custom is unlike any other you'll ever come by. This vehicle is the exact right amount of custom, street rod, muscle car, and luxury vehicle all rolled into one complete package. This gorgeous Cadillac for sale is powered by a Cadillac 500 cubic inch V8 that puts out a heart stopping 400 horsepower, from the factory! The rebuild was completed by renowned engine builder Evanuk Performance, of Pittsburgh, PA. The vehicle has 6,874 miles since being rebuilt. The build includes being bored, with small features added, like: electronic ignition, custom built crossflow radiator with twin 16" electric fans, and Sanderson ceramic coated headers. Behind the Sanderson headers, you'll find a Borla stainless steel exhaust system. The Borla turbo mufflers give the vehicle a very smooth, yet sporty exhaust note. The engine is backed by a TH400 transmission, with a Gear Vendors overdrive kit added. With the overdrive and the 3.23 gears, the 48" Cadillac for sale cruises at a low 1900 RPM at 70 MPH and has been stated to get 20 MPG on the open road. The chassis itself is a customized 1985 Cadillac Coupe de Ville, which has: power steering, power disc brakes, and fully custom Air Ride suspension with air bags and digital controls. Though it's obvious to see through reading, that this vehicle has been built and customized, you don't really get a full grasp of it until you realize all of the subtle things that have been done to the body that really makes this car a one of a kind ride. There is so much more that can be said about this vehicle, but the only way to truly grasp the concept of this vehicle is to see it in pictures or in person. It's not just a car, it's a masterpiece! This 48" Cadillac convertible for sale is located in our Tampa Showroom and can be seen at www.GatewayClassicCars.com, or call (813)-645-6200 for additional information on this rolling piece of automotive art.
