### \*\*\*\*ProjectCar1983 Cadillac Fleetwood\*\*\*\*

2 door 1983 fleetwood its currently not running. i bought it that way I was going to work on it but never had time to. It was a one time owner from california that sold it to me he moved to ft worth in which I got towed to my house. Its literally been sitting in my back yard for 2 and 1/2 years the interior is blue very nice ingreat condition the paint job was new when I got it but it has been sittong there,acouple sidestrips are loose not a biggie. Th. Bigger problem is the motor the pistons are knocking I believe I jist hvent had the time or money to work on it. It deserves a better owner I originally bought it for 4500 non running in asking for 3200 no lower than tht or bet offer. I have a spare engine tht I was going to put in tht will be included as well.
