## 1984 Cadillac Eldorado Biarritz

This car has very Limited Availability - This Cadillac Factory Convertible was only produced for 2 years, 1984 and 1985. Only approximately 1,500 were produced in 1984 and 1,200 in 1985. This particular car is a Biarritz model with only has 98,000 miles. We received this car from my parents because they no longer needed it and I am looking to sell it to someone who can appreciate it. My parents bought this car from the original owner used along with a 1991 Cadillac Seville. Interior is in relatively good condition with less than normal wear. Convertible top fully working as well as AC, radio, heater, window motors, and trunk motor. The car has been garage kept and driven lightly for the length of the ownership in our family. Clean title (VIN is G6AL6783EE674280). Engine runs very well as it has been maintained meticulously through out the years.
