Cadillac has always been known for luxurious, roomy, and plush interiors with a nice array of accents and this Deville doesn't disappoint! This stylish Caddy has been in the same family since new, and aside from a fresh coat of paint, retains the original interior, in addition to the factory owners manual. This clean Deville has an original 98,568 miles on the odometer and carries a brawny 425-cubic inch V8 engine under the hood which only cranks out ten less horsepower than the previous 500 cubic-inch engine. The Naples yellow paint and white vinyl top are the correct colors of its time. Cadillac's usually come with a wide assortment of options and this one is no different. Options include: A/C, AM/FM stereo with cassette, cruise control, power steering, power brakes, power locks, power windows, power seats, tilt/telescopic wheel, seat belts, white wall radial tires, leather interior, and chrome Caddy wire hub caps. Located in our Detroit showroom, this 1977 Cadillac can be seen in greater detail, including HD photos and video, at www.GatewayClassicCars.com, or call (313)-982-3100 for more information.
