

[Cadillacs For Sale by owner ::](#)

## California Convertible - clean!

This car was purchased originally at George Olson Cadillac in San Francisco, CA, by a wealthy couple in Marin, for HER to drive. She died and the car was sold to me in 1983. As only the second female owner, I have driven this car and maintained it lovingly for 32 years and now, it is time to move forward. This car is great for parades, car shows, wine tasting, weddings, proms, and anytime you want to make an entrance because when you drive it, you will feel special. Cars move out of the way, people honk and wave and it's like a parade every time you drive! Exterior painted approx. 10 years ago and is still in beautiful condition, as it was garaged. Automatic Climate Control, Cruise Control, Rear Window Defogger, Power door locks, windows and top. Original license plates, AM/FM radio with 8 track, tilt and telescope steering wheel, trunk mat, expanded leather upholstery (needs new) The top Bonus extras: Pristine owner's manual, original maintenance schedule, and Emissions guides in vinyl Cadillac holder. Extra misc. parts including hub caps. Car being sold AS-IS, no warranty.
